The Team will work mainly with children, young people and families. The main focus of the work will lie in social outreach. The team will look after and expand Kidsclub in Chemnitz/Hilbersdorf and Flöha, where the kids can receive help with their homework, have the chance to do something meaningful with their freetime, and also encounter the love of God. The main goal of the Kidsclubs is to offer the attention and acceptance that the children, from socially difficult areas, so desperately lack. Furthermore, the Team will support the Mission Projects of the Churches and of the Hospital. Through this we can build the Kingdom of God.

For the Team members the year offers the opportunity to discover God in new ways, to grow in faith, to take part in social and mission projects, and to discover a new country and a new way of life.

A Year on Team

International Mission Team

We are looking for young people from 18 years old who want to walk a special path with God and encounter people with God's love. As it will be an international team, it is very important to be prepared to be open to others and to be able to work with other mentalities. Alongside the main projects, the year offers many opportunities and room for developing and implementing your own ideas for social outreach and mission work.

Set-up

The year will begin by taking part in a Youth Conference. After that the first week will take shape as freetime together, in which there will be time for Bible reading, preparation for service within the team, getting to know each other and activities together. This week will serve to structure and form the set-up of life as a Team and also the spiritual lives spent together. Planning and analysis meetings will also take place regularly.

Leadership and Backing

Barry Sloan, Pastor of the Circuit Chemnitz/Erlöserkirche, will be the Leader of the Team. Pastor Frank Eibisch is Coordinator for projects in Bethanien. Verona Lasch, Consultant for Youth Work from the Department of Youth and Childrens Work, will lead the preparation and analysis meetings of the team. We also have in Chemnitz Katja Siegert, who will be there as Mentor for the Team. She will help with administrative matters, and also with questions about Teamlife.
